WHY DO YOU NEED SHELTER?

UltraSite offers UltraShelter, a full spectrum of shelter designs that create community spaces while helping protect patrons from many of nature's elements. UltraSite is committed to providing the highest quality standards for your shelter project. With options for both standard shapes and custom structures, an UltraSite sales representative will guide you through a simplified process of providing a unique shelter that protects your recreation investment and your community.

All fasteners are concealed at connection points.

Electrical outlet cutouts are available.

Add handrails to any structure.

Designed to meet local wind and snow load requirements.

**BLOCKS 99%
OF UV RAYS**

**CORROSION-RESISTANT
POWDER-COAT
TUBING**

**75% COLOR
RETENTION
NO CHALKING**

**MULTIPLE
ROOFING
OPTIONS**

STRUCTURAL

Standard structure engineered to withstand wind loads up to 90 mph and snow loads of 20 lbs. per square foot. All structures will be designed to meet local codes if they are above these standards:

Steel tubing is fabricated from structural steel (minimum ASTM A500 Grade B)

All plates are fabricated from A36 steel

Structure is designed to discourage bird nesting locations

COATINGS

Coatings are tested to meet the following criteria:

Humidity resistance per ASTM D2247-94 to 5,000 hours with no loss of adhesion or blistering

Color/UV resistance to 2,000 hours exposure, resulting in no chalking

75% color retention

Zinc rich primer is applied with a 1-2 mil thickness

HARDWARE

High-strength bolts, high-strength nuts, and anchor bolts comply with ASTM standards.

All fasteners are concealed, where possible, inside tubing.

METAL ROOFING

Roofing panels are constructed and coated with Kynar 500® coating or Hylar 5000® coating systems

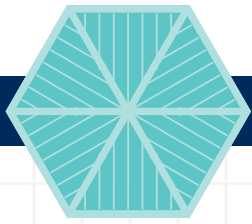

Multiple roofing options are available including: Max Rib, Multi Rib, Standing Seam, and Shingle

2x6 #1 Southern Yellow Pine Tongue & Groove sub-roof available

LIMITED WARRANTY

10
year

UltraSite™ warrants that the shelter structure sold will be free from defects in materials under intended use for a period of 10 years from the date of delivery.
