(j)

www.playmart.com Recovering Yesterday's Plastics for Today's Play[™]

Note from Rebecca Beach, CEO

Dennis and I had both been passionate about the health of the environment even before we first met at Game, Fish & Parks in Denver, Colorado. In 1971, shortly after graduating from Rutgers University as a Landscape Architect and fresh out of the Peace Corps, Dennis' love for parks and public lands brought him to Colorado looking for work. His willingness to work at any pay rate and his design portfolio, prompted the Director to create a position for him on the spot. He immediately began the master plan for Lathrop State Park, laid out miles and miles of hiking trails and developed the

Colorado Park Sign Manual. Meanwhile, I was on a mission to "save the environment" and landed a job working in the Environmental Resources department at the same government agency. Two years later, fifty of our friends and family hiked one of those trails for two miles to join us in a gorgeous mountain meadow at 10,000 feet where we were married.

Several years later, with two small babies, we had a growing desire to see our family grow up in a natural, rural environment where I could live out my obsession for growing pure, organic, whole foods. In 1978 with everything we could cram into an old truck, we migrated the family from zero-population growth Boulder,

Colorado to the rolling hills and creeks of Woodstock, Kentucky. Dennis

Dennis & Rebecca Beach's wedding, 1972 Golden Gate State Park, CO

provided for our growing family by doing remodeling, construction and basically anything he could to keep us fed; Landscape Architect jobs were not available in rural Kentucky. In 1981 when a local PTA requested he build a playground, he undertook the project with characteristic energy and innovation, and thus, Play Mart was born. Dennis' life-long passions for creative-engineering, construction, energy efficiency, good design and the natural environment are the foundation for what Play Mart has become today.

My interest and education in early child development, a desire for our children to have a more creative educational environment and spiritual concerns for our children in public schools, led us to choose to homeschool our five bright kids. I incorporated my passions for organic gardening, hiking, biking, nature-exploration, imaginative play, sewing, art, cooking and baking into our children's daily educational routine. Mornings were devoted to book work, while afternoons were spent gardening; in the woods; or helping Dad design, build, install and market playgrounds.

Over thirty years later, several Beach family members continue to manage the operations of the company and direct the mission, vision and heart of this family-owned and operated company. My desire to instill a love of nature in children while stimulating physical and mental development guided the formation of Play Mart's mission to provide children the opportunity of experiencing a safe, environmentally friendly and creative place in which to play and grow.

Contents

Recovering yesterday's plastics for today's play[™]

Focused on this generation, and the next, we engineer our playground products to be:

1). ENVIRONMENTALLY LOW-IMPACT:

We turn milk jugs into playgrounds!

All Play Mart products are made from recycled materials diverting millions of milk jugs from landfills annually. 80-90% of an entire play structure is made of recycled materials.

RSP[™] (Recycled Structural Plastic[™]):

Play Mart produces our proprietary plastic lumber, RSP[™], from recycled post consumer / post industrial HDPE plastic using our in-house extrusion line. Our proprietary formula has recently been improved to increase strength and durability. Stainless Steel is used where needed for structural reinforcement. RSP[™] is used for decks, posts, railings, steppers and other structural parts. Sourcing only pure, clean, HDPE (High Density Polyethylene) materials to create our lumber is the best way to guarantee our high quality products. Available in Brown or Tan. See inside back cover for playset color schemes.

DOES NOT FADE

On many metal playgrounds, beautiful reds turn into pink, and yellows fade to a milky tan color - not the result you want when investing thousands of dollars in a playground. Play Mart's RSP™ is highly UV and ade resistant. Our colors remain "factory fresh" for many years! Play Mart's systems built with RSP[™] are designed to look beautiful after decades of service.

DOES NOT RUST

Rust on metal playgrounds is all too common, even those coated with plastic or PVC. Rust can injure children and shortens the life of the play system. When you buy Play Mart equipment made with RSP[™] you don't have to worry! RSP[™] is designed to handle he toughest elements that nature can dish out - with no rust! RSP[™] is weather resistant - non-porous mechanical properties remain static even when in continuous contact with water, sea air, salt and sand.

Other playgrounds decks are often coated with PVC, which tends to peel. RSP™ is solid material and so it will not de-laminate (coatng peel apart) creating rust and trip hazards. RSP™ does not contain PVC; it is non-toxic and will not leach or bleed arsenic, heavy metals or chemicals into water or soil.

GRAFFITI RESISTANT

Any parent or park director will tell you that graffiti is an all too common problem for most playgrounds. Stickers, etching into metal posts, markers and spray paint all detract from the kid-friendly play environment. Play Mart's RSP™ makes graffiti removal very easy! Marker and spray paint will come off with a cloth and light cleaning solution and stickers don't stick to RSP™. Small scratches "self-heal" into the material, and larger ones can be smoothed easily while keeping color integrity.

DOES NOT ROT OR SPLINTER

Although gaining in popularity, wood is not a preferred building material for playground use. Wood is susceptible to insect damage, rot, splintering, and requires a great deal of maintenance. Over the life cycle of a playground, a Play Mart RSP[™] playset will far exceed the value of a wood playset. RSP™ is flame, rot and fungus resistant, and is immune to termites, insects and borers. Steel Posts can split when post caps

DOES NOT CHIP OR FLAKE

Play Mart is committed to building playgrounds that wear well with use. Our RSP[™] has a consistent color throughout the entire post or board, which gives it the ability to conceal scuffs and scratches. Painted metal posts guickly accumulate these imperfections, which result in major paint issues that require repair or replacement. RSP[™] does not have an outer layer that can flake off or get chipped away and never needs painting or treating.

EcoColor[™] Plastic - Recycled in Many Color Choices.

EcoColor™ Plastic:

Recycled post-consumer / post-industrial HDPE sheet plastic is used for all color and graphic panels; Castle, Islander, and Village Roofs; Safety Handle Panels and Safety Hoods; Rock Walls; etc. Play Mart is one of very few playground manufacturers using recycled Polyethylene sheet plastic.

SureStep[™] Decks:

Our proprietary slip-resistant ridged RSP[™] deck board is used for all walking surfaces to greatly increase friction and reduce falls so children can walk and run confidently on our products. This safety feature is unmatched in the playground manufacturing industry.

Toxin Free:

All products are 100% Arsenate/Arsenic, BPA, Phthalate and "soft" PVC free.

SureGrip[™] Metal Finish Coating:

We powder-coat our climbers and sliders with a uniquely strong and textured surface to increase friction and reduce falls. This slip-resistant powder coat is another unmatched feature in the playground industry.

3). ENDURING:

Metal Components:

Sourcing only steel tubing with a triple protective zinc flow coat surface and high thermoset electromagnetically applied powder coating provides five to six times greater corrosion resistance than painting over uncoated steel. Steel pipe is used for all metal climbers, overhead climbers, ladders, and railings.

Smooth Stainless Steel Welds:

Welds are especially vulnerable to rusting due to paint chipping off and revealing raw steel beneath. However, we use only Stainless Steel welding wire, and require our welders to create super-smooth welds, preventing jagged edges susceptible to chipping. This unmatched feature protects children from cuts, while preventing rust! Stainless Steel welds and plates have a 60% minimum recycled content.

Stainless Steel:

very quickly.

All Hardware is Stainless Steel.

Stainless Steel Welds and

SureGrip[™] powder coated pipe.

Roto-Molded Plastic: Due to characteristics of roto-molding, only UV Stabilized virgin plastics (LDPE) may be used to manufacture structurally-sound Slides, Tunnels, Roto-molded Climbers, Panels and Roofs (e.g. Mountain Climber, Spinning Panels parts, Casa Grande Roof).

800-43-PLAYS

NON-TOXIC, DOES NOT PEEL

RSP[™] - Milk Jugs Recycled into Lumber.

Cold-Formed Steel Providing High Yield/Tensile Strength with Interior Corrosion Resistant Coating

Clear Coating

Hot-Dipped Uniform

Zinc Galvanizing

Conversion Coating

Rust-proof Stainless Steel hardware and attachment plates are standard on all Play Mart equipment - features unmatched in the playground industry. We even offer a complete Stainless Steel upgrade for all metal on the entire structure - the solution for coastal environments where salt-spray disintegrates galvanized steel and corrodes aluminum

Conscientious Recycling:

We are very picky about our material inputs, rejecting all commingled plastics, organic contaminants, or other foreign matter. Making plastic lumber from commingled (mixed) plastic waste is cheap and less complicated. However, doing so compromises the integrity of the lumber. Each shipment of plastic "feedstock" is inspected and rejected if it is not consistent, clean HDPE material for recycling into lumber.

Milk jugs shredded before extrusion.

Internal Recycling:

Almost all of our manufacturing waste and more than 75% of our operations' waste is recycled. Scraps that we generate (such as saw shavings on the plant floor, packaging film, cardboard or metal scraps) are either reground for plastic lumber or sorted for recycling elsewhere. We source recycled office supplies and environmentally-friendly cleaning products as much as possible.

Green Building Standards:

Environmentally conscious building standards have become the norm, and Play Mart's playground equipment can contribute towards overall points in many of these rating systems. Contact your Play Mart Sales Representative for more information.

Woman Owned Small Business

Play Mart is a woman-owned small business in rural Somerset, Kentucky. Rebecca Beach is the majority stockholder, co-owning Play Mart with her husband Dennis. Play Mart has provided local jobs for 35 years at the Kentucky manufacturing plant, shipping environmentally low-impact playground products nationally and internationally. Our products are 100% manufactured in the USA and all raw materials sourced in the USA.

Landscape Architect Owner/Designer

As one of the few playground companies in America that is co-owned and operated by a Registered Landscape Architect, we can guarantee our designs meet the latest safety standards as well as being creative masterpieces. Dennis Beach, coowner of Play Mart and registered Landscape Architect, is integrally involved with and oversees all product development.

"It is blatantly obvious that you have put a lot of careful thought into developing your engaging products for children."

Matthew Evans, FASLA, Senior Landscape Architect and Horticulturist, United States Capitol, Washington, D.C.

GSA Contract:

Play Mart offers all products at a significant discount to US Government agencies through our GSA Contract GS-07F-0206L. Find our products at

www.gsaadvantage.gov, www.playmart.com or contact us at sales@playmart.com.

Contract: GS-07F-0206L

Play Mart received an "Exceptional" rating for our 2015 GSA Report Card.

GSA Awarded Play Mart their coveted GSA Evergreen Award recently:

"These companies have done an outstanding job of making environmentally friendly options available to our federal customers and are committed to helping us reduce waste and save taxpayer dollars. We are honored to partner with companies that help us to green the government's supply chain while creating a more sustainable environment and building a greener future."

- GSA Regional Administrator David H. Ehrenwerth.

SketchUp: Play Mart's product designs in this catalog are easily available on SketchUp's 3D Warehouse. Just search for "Play Mart" in the warehouse at:_

3dwarehouse.sketchup.com. Download product models and add them to your site plan. Click our website link in the 3D Warehouse for more information on each product. Visualize products on your site by geo-locating the model and viewing it in your exact location on Google Earth.

IPEMA Testing:

In the interest of playground safety, the International Play Equipment Manufacturers Association (IPEMA) provides a Third Party Certification Service whereby a designated independent laboratory, TÜV SÜD America Inc., (TÜV), validates an equipment manufacturer's certification of conformance to ASTM F1487, Standard Consumer Safety Performance Specification for Playground Equipment for Public Use, except sections 7.1.1, 10 and 12.6.1; to CAN/CSA Z614, Children's Playspaces and Equipment, except clauses 9.8, 10 & 11; or both. Play Mart has products validated for conformance to ASTM F1487, Standard Consumer Safety Performance Specification for Playground Equipment for Public Use by IPEMA's Third Party Certification Service. Visit www.ipema.org to verify product certification on our playground equipment.

Design Compliance:

Play Mart designs all products according to ASTM F1487 standards, CAN/ CSA Z614 standards, CPSC Guidelines, and ADA Accessibility Guidelines.

Standing Behind our Products:

We have been manufacturing playgrounds for 35 years, and know from experience that sometimes not everything we build works "just right". But, we always stand behind our products and services until our customers' needs are met and our products meet our high quality standards.

Play Mart's literally ground-breaking Nature of Early Play™ product line provides young children with the opportunity to have *authentic experiences with nature* - water, sand, dirt, rocks, birds, seedlings - as well as music. Even an infant can experience the outdoors in a protective environment and experience aspects of the natural world. Musical play-components, gardening beds, nature bowls, and vine-covered arch hideaways represent products that are developmentally and anatomically designed for the young child and meet ASTM/ CPSC guidelines.

Mini

Mini Play Systems™

Play Mart's premier compact playground line. Mini playgrounds are ideal for compact spaces and compact budgets, providing high play value (most cost effective per play activity) and maximum space efficiency. Mini decks are 24" x 31" (with a 6 ft maximum height) and posts are 4"x4". If you're looking for the most "bang-for-your-buck", go Mini!

Play-Fit[™] was designed around one main concept: Children need play to develop into healthy adults - without it they run a greater risk of obesity and developmental handicaps. Based on research, it is clear that play is vital for healthy children. Play-Fit[™] designs are intended to entice children of all ages to "get moving" and have a blast through continuous play as they climb, step, reach, boulder, stretch and swing from one type of play element to the next while never touching the ground. Play-Fit[™] keeps kids moving and healthy!

Cyclone and Tornado

The familiar tire swing just jumped to the next level of twirling, swinging fun!

Cyclone: Children cooperate to spin while bouncing on soft-edged, spring-action off-axis platform. The upper chains are fully coated, smooth and durable for comfort and complete hand grip safety.

Tornado: Three rings for collaborative spinning are aluminum with coating for hand comfort.

Cyclone

Both are available independent (on RSP A-Frame) or on connected system (such as Pioneer above, and left). Swivels are commercial grade tire swivels with protective rubber boot. Pipe ring symmetrically formed to avoid contact with horizontal pipe.

recommended ages: 5-12 yrs A-frame safety zone: 40' x 22'

Belt Seat

Half Bucket Seat With or without chain

Swings (with RSP A-Frame) ailable up to 8 bays (2 swings per bay). Choose seats below. All swing an in plastisol coated. Add rubber pads to prevent surfacing kick-out.

Full Bucket Seat

Tuned Drums

These five tuned hand drums are made with replaceable plastic heads ranging from six inches to fifteen inches in diameter. Available either on a Stand (angling the drums toward the young percussionist) or Upright either In-Ground or Surface Mount. Available in Elementary/Adult (41.5"H), Toddler/Preschool (34.5"H) or Infant/Pretoddler (30"H) sizes. Standard Colors: Primary Rainbow with molded caps in Red, Purple, Blue, Yellow and Moss – or – all green drum bodies with molded caps in Yellow, Blue, Moss, or Taupe.

Duet

Combines keys of aluminum and fiberglass to enhance the playing experience. Enjoy both sounds of delight and rhythm at the same time or enjoy playing with someone and share the experience. Available in Red only.

Imbarimba

This unique musical design combines the elements of two classic African instruments: the marimba (a resonated xylophone) and the kalimba (a thumb piano). These notes are arranged in the layout of the kalimba with long bars in the middle and short bars on the ends. This allows both hands equal access to the upper and lower notes. Also available portable (stand sold separately). Standard Color: Yellow

Pagoda Bells

Reminiscent of the architecture of the Orient, the Pagoda is a vertical array of bells that provide lush tones of long duration. Durable and completely maintenance-free, the Pagoda Bells are a calming addition to any outdoor setting. As a park or garden ornament, or as an engaging piece of interactive urban art, this instrument rings with blended tones, focusing attention on any outdoor setting.

Yantzee

The low notes of the Yantzee create a rich canvas of sound for the other melodic instruments to play over. The individual notes are made with two and a half inch aluminum bars that are resonated by three inch diameter tubes ranging from one foot to two and a half feet long. These low tones have remarkable projection for their size. Standard Color: Blue

Chime Swirl

Tones are pure, soothing and never go out of tune. Ideal for music therapy and community music projects. The twentysix chimes are made of durable, resonated anodized aluminum and range from soprano to alto, in the key of C major and A minor, tuned to the pentatonic scale. The instrument can be wall mounted. The Swirl's warm vibrant tone comes from individual resonators made of impact-resistant ABS material. Standard Color: Orange

Pegasus The aluminium bars of the Pegasus give an incredibly resonant and sustained sound that both adults and children find enchanting. The Pegasus is a hefty metallophone made with twenty-three resonated aluminum bars in the key of C major and A minor. The instrument can be wall mounted or set on a sturdy stand. Standard Color : Sky Blue

<u>Musical Play</u>

Manta Ray

The Manta Ray is an elegant anodized aluminum metallophone with a non-rusting steel frame. The individual chime tubes are suspended by nylon coated stainless steel cable. The same scale is mirrored to the right and left sides. The range is two octaves and a fifth, the scale is C major. Playing this instrument is a delight

Contrabass Chimes

Stunning in both their towering appearance and low resonant sound, these seven chimes are pitched one octave below middle C. The chimes range in height from seven to nine feet. They are made of four inch diameter heavy duty anodized aluminum tube and can be installed in a horseshoe shape to enable the player to experience a surround sound effect.

71

Drama Deck

Accessible stage for outdoor theater for players of all ages and abilities. Filtered shade with the optional trellis or full shade with optional roof. Also available without ramp or roof.

Gazebo with Hex Roof

Solid roof for sheltered outdoor classroom settings. Includes 3 attached benches. Add optional attached Chime Panel, Magnetic Chalkboard or Paint Panel. Combine with Water, Sand, Music and Gardening items to complete your site.

See our early childhood "Nature of Early Play" catalog or visit www.playmart.com to view the full product line.

Storage Shed

Made with RSP[™] (Recycled Structural Plastic) framing and roof purlins, recycled EcoColor[™] plastic (HDPE) sheathing for truss and siding, 2 front non-opening windows, optional side windows, shelving and a double primed door (to be painted after installed). Framing Options: RSP[™] or Wood frame inside / RSP[™] outside. (Wood only available in the USA). 10' x 10' Shown. Also available in 10' x 12' and 10' x 16' Sizes.

Storage Bench

Waterproof storage and seating solution. Protects stored toys, branches or even craft projects from the weather. The bench lid has hydraulic hinges to make lifting and closing the lid easy, as well as protect small hands and fingers from getting smashed. Dimensions are 48" or 72"L x 16"W x 14" H.

Upright Storage Cabinet

4' Long x 2' Deep x 6' High Locking handle. Stainless Steel Hinge and hardware.

6FT Storage Bench

6'Long x 2' Deep x 3' High

6' Ergo-EcoBench - custom engraving and Side-arms optional.

4' Ergo-EcoBench.

Ergo-EcoBench[™] (6' and 4' - Adult Size) Play Mart's exclusive Ergo-EcoBench[™] is the ultimate in luxurious outdoor seating. Modeled after ergonomically-minded office furniture, the bench provides superb lumbar support. According to many "testers", this is the bench that "fits all rears!" High seatback allows backs to fully relax. Parents and care-givers will enjoy relaxing in the shade during recess time on the Ergo-EcoBench[™] with Roof. Optional Side-arms with cup holders only complete the luxury of this oh-so-comfortable bench. You have to try it to believe it. 4' and 6' Ergo-Eco Kid's Bench available for ages 2-5.

Custom engraving on top of seat back.

Ergo-EcoBench with Roof

The same bench as our 4' or 6' Ergo-EcoBenches above with a shade-roof! 6' Bench shown.

Available in 4' or 6' Lengths (4' shown). Top boards 2"x2". Installation options: In-ground or Surface-mount.

Bike Racks Can be installed surface-mount or in-ground. 1, 3, or 5 Loop Racks available in

Heavy Duty (2-3/8") pipe or Light (1 5/8") pipe. Powder coated with heavy-duty,

1 Loop Bike Rack Holds up to 3 bikes. Shown in Light Pipe, Surface-Mount.

3 Loop Bike Rack Holds up to 5 bikes. Shown in Heavy-Duty Pipe, Surface-Mount.

5 Loop Bike Rack Holds up to 7 bikes. Show in Heavy-duty Pipe, Surface-Mount. For more information, visit playmart.com

Trash Receptacle -**RSP** Picket Includes removable liner for easy-cleaning.

Trash Receptacle -**Color Plastic** Also available shorter for 2-5 years.

All RSP[™] tables and benches are:

- Colors as shown. ٠
- Come with appropriate hardware for your ٠ specified installation - anchor, surface mount, etc.
- Made from heavy-duty, easy-clean, vandal-٠ resistant RSP™.

Safety / Age Sign

Playset age group designation signage included with every playground. Includes basic safeplay rules. Tan/Brown, attached to 4"x 4" RSP post.

Site Amenities

Custom Project Sign

Can include site name, age group designation and recycled content of playground! Available with or without 4"x 4" RSP post.

Kids Only Plank Sign

Goofy "wood-plank" look sign goes well with Plank Rails. See the Wonky Treehouse Playset on page 22.

48"L x 24" H.

4' Elementary Picnic Table

7' Accessible Picnic Table

Seats 7 including wheelchair accessible extension. Shade umbrella hole optional. 84"L x 30"H.

5' Accessible Elementary Picnic Table

Also available (not shown) $5'L \times 24'' H$.

Raised Garden Bed

Site Amenities

Wanting to reconnect young children with nature? Try this Raised Garden Bed sized for young ones to get their hands messy and learn about growing veggies, flowers or simply how dirt feels! Perfect for outdoor applications (although great indoors too!). Available with or without bottom. 2'W x 1'H x 4'L

Square Foot Gardening Grid

Reusable collapsible planting grid helps separate plants for correct spacing. Collapses for easy storage and reuse. Made from solid recycled plastic and stainless steel hardware.

Planter - 2' Cube Garden in small areas, or accent landscaping with heavy-duty recycled plastic planters.

ModBox

Dimensions: 24"L x 8"W x 8"H or 24"L X 12"W X 12"H or 48"L x 12"W x 12"H. In addition to plants, they can become storage for loose parts, portable sandboxes, turned upside down for a table, stage, train, etc.

For more information, visit playmart.com

RSP[™] Planters

Made from our exclusive RSP[™] (Recycled Structural Plastic) lumber manufactured in-house. Available in standard 48" or 72" lengths. 24" W x 10.5"H. Other sizes available.

Round Planter Full circular planter. No Bottom. Standard Molded Plastic Colors Available.

Half Moon Planter Half-circular planter.

Octagon Bench Creates shaded seating around a tree.

Shade Structures

The National Program for Playground Safety recommends: "Include shade covering in the design of playground equipment and recreational areas." Some states require a percentage of the playground be shaded. Check for your state's requirements. Play Mart offers a wide selection of Shade coverings. Visit www.playmart.com or ask your Play Mart Distributor for options.

Installation

Customers may choose from these options:

- Certified Play Mart Installations Ask for a quote from your local Play Mart sales representative. Our professional installation crews are trained, certified and experienced.
- **Supervised Installations** by a Certified Play Mart Installer are available. Ask for a quote from your local Play Mart sales representative.

In-ground: Most equipment can be installed in-ground with concreted posts unless otherwise stated.

Surface-Mount: Most equipment can be surface mounted to a concrete pad of sufficient depth with appropriate brackets unless otherwise stated. Brackets are an additional cost.

Shipping

Playsets and all large orders will ship by full or partial truck load. Your local sales representative will include shipping with your product quote.

CPSC Public Playground Safety Handbook 2.4 Surfacing Recommendations:

The surfacing under and around playground equipment is one of the most important factors in reducing the likelihood of lifethreatening head injuries. A fall onto a shock absorbing surface is less likely to cause a serious head injury than a fall onto a hard surface. However, some injuries from falls, including broken limbs, may occur no matter what playground surfacing material is used.

Loose-Fill Surfacing Material Depth (inches)	Surfacing Type	Fall Height (feet)
6*	Shredded/recycled rubber	10
9	Sand	4
9	Pea Gravel	5
9	Wood mulch (non-CCA)	7
9	Wood chips	10

Surfacing - Loose Fill

Loose-fill surfacing materials require special maintenance and refilling to maintain appropriate, even fall-height depth requirements. Engineered Wood Fiber: Organic (compostable) material. Most economical

Loose Fill Rubber: Recycled rubber. Will not rot, fade, or float away. Needs containment border. Many color options available. Versatile product that can be used for play use zones and mulch for planter boxes or garden beds.

Surfacing - Unitary

Unitary Rubber (Poured-In-Place): Recycled EDPM rubber mixed and poured on site into optional custom designs and colors. Durable, porous, many color choices. Sub-surface must be concrete, asphalt or compacted stone. Good choice for accessible pathways.

Play tiles: Factory molded interlocking tiles. Durable with several color choices. Sub-surface must be concrete, asphalt or compacted stone. No borders required. Low maintenance.

Turf: Polyethylene turf fibers and optional rubber in-fill. Sub-surface must be concrete, asphalt, compacted stone or excavated earth. Invitingly green, soft texture resembling real grass.

Borders

RSP[™]: Recycled Structural Plastic[™] borders are made from the same heavyduty lumber with which we manufacture our playground equipment - 100% recycled post-consumer HDPE plastic. Smooth, rounded corners. Never rots or decays, cleans easily, low-maintenance. Secures easily with metal spike. Available in Tan or Brown.

Molded Plastic Timber: Made from polyethylene and are durable, yet lightweight. Will not rot, decay, or splinter. Rounded corners and no sharp edges. Secures with metal spike. Available in Black only.

Rubber Curb: Made from recycled rubber tires. Flexible with rounded edges: smooth and seamless, no splintering, warping or discoloration, low maintenance. Simple installation - secures with metal spike. Available in Brown only.

800-43-PLAYS

Minimum Compressed Leose-Fill Surfacing Depths

Actual surfacing depths and fall heights must be confirmed with supplier.

choice. Requires containment border and weed-control fabric.

Ask your representative for more surfacing and border options and manufacturer-specific details.

It is up to you and your community to maintain a safe, friendly playground environment in order to reduce playground injuries.

> Check for vandalism or debris especially after heavy-use events or inclement weather.

Detailed inspections should give special attention to moving parts and loose fill surfacing which can be displaced during play.

Inadequate maintenance of equipment is a common cause of injuries on playgrounds.

The safety of playground equipment depends on good inspections and systematic, routine maintenance. It is advisable for personnel who will implement the inspections to be trained through a program like the National Recreation and Park Association's "Certification Course for Playground Safety Inspectors".

The quality of playground supervision depends on the supervisor's knowledge of safe play behavior. Play Mart includes with each Owner's Manual a copy of the US Consumer Product Safety Commissions's Guidelines as a resource for your supervisors and inspectors.

Play Mart's staff of Certified Playground Inspectors have developed check lists and recommended inspection schedules to help our customers develop thorough and effective maintenance programs. These guidelines include a High Frequency Checklist for potential problems to be performed daily or weekly and a Low Frequency Maintenance Schedule for monthly or quarterly inspections. Records of all maintenance inspections and repairs should be retained, signed, dated and filed. Maintenance documentation will be required for warranty claims, and Play Mart may refuse a claim if it is clear that the playset has not been maintained according to our recommended maintenance instructions and/or schedule.

proper maintenance as required by Play Mart, against structural failure due to deterioration or weathering; not subjected to vandalism, negligence or acts of God.

15 YEAR WARRANTY on STEEL and STAINLESS STEEL COMPONENTS and STAINLESS STEEL HARDWARE under normal use and with maintenance as required by Play Mart, against structural failure due to corrosion, deterioration or weathering; not subjected to vandalism, negligence or acts of God.

10 YEAR WARRANTY on POLYETHYLENE ROTO-MOLDED PRODUCTS, RSP[™] COMPONENTS and PARTS not already listed, RSP[™] BORDERS under normal use and with maintenance as required by Play Mart, against structural failure due to deterioration or weathering; not subjected to vandalism, negligence or acts of God.

1 YEAR WARRANTY on MOVING PARTS and all other MATERIALS not mentioned above under normal use and proper maintenance against structural failure due to corrosion, deterioration, weathering or manufacturing defects; not subjected to vandalism, negligence or acts of God.

The above mentioned warranties do not include cosmetic issues, scratches, dents, marring, moderate warping, fading or discoloration. Damage resulting from normal wear and tear, vandalism, misuse, negligence, accidents or acts of God are not covered by this warranty. Products damaged in the shipping process must be notated on the Bill of Lading and will be processed through a Freight Claim.

Upon submission of the Customer Service Form notifying Play Mart of a defective part, the claim will be processed and the repair or replacement part(s) covered by the above warranties will be shipped. Labor or the cost of labor for the removal of the defective part or parts and the installation of any replacement part or parts is not included. Shipping costs are not covered after the first year on warranty parts. Warranty commences on date of Seller's invoice.

The above warranties are valid only if:

- Original structures were installed by a Play Mart Certified Installer identified on Warranty Registration.

- maintenance forms or contact your installer.
- Mart Installer.

Moving equipment voids warranty. If product ownership is transferred, previous and ongoing maintenance documents should be kept on file.

Restocking: Play Mart may choose to restock play equipment in reusable condition for a 20% restocking fee plus shipping costs.

MART PRODUCTS CONSIDERED TO BE PART OF THE "NATURE OF EARLY PLAY" LINE OF EQUIPMENT.

TO THE EXTENT PERMITTED BY LAW, THIS WARRANTY AND THE REMEDIES SET FORTH ARE EXCLUSIVE AND IN LIEU OF ALL OTHER WARRANTIES, REMEDIES AND CONDITIONS, WHETHER ORAL, WRITTEN, STATUTORY, EXPRESS OR IMPLIED.
